Henrik Valter
Jacob Carlback
Oskar Leander

Logistics: Lucas Glimfjord
Patrik Emanuelsson
Alexander Vannas
Erik Ljungdahl

PR: Adam Davidsson
Emil Hemdal
Robin Repo Wecklauf

Welcome to DatE-IT

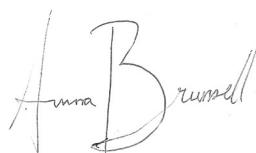

14th of November: World Diabetes Day as well as the Swedish "cheesecake" day. Not only that, it is also the name day of no less than Emil and Emilia, the generic names of any Chalmers student. This date, however, it's also the date of the DatE-IT fair!

The big news for this year is the change in location. Instead of having the fair in the EDIT-building we have moved the fair 200 meters into the SB-multisal! Why did we move the fair, you might ask. We didn't move because we could fit in more companies, or because of the expanding possibilities. We did it because we strongly believe that this move increases the quality of the fair, for both you and the exhibitors. No more running up and down the stairs, in and out of group rooms. No more running out of air and no more frustration because the fair is using all of the study rooms and you have an assignment due yesterday.

Now all of the exhibitors will be in the SB-multisal and you will never again miss an interesting company because you couldn't find your way to the dungeons. And if you are worried about finding your way down to the fair, worry no more! Just follow the signs, there will be no way for you to get lost.

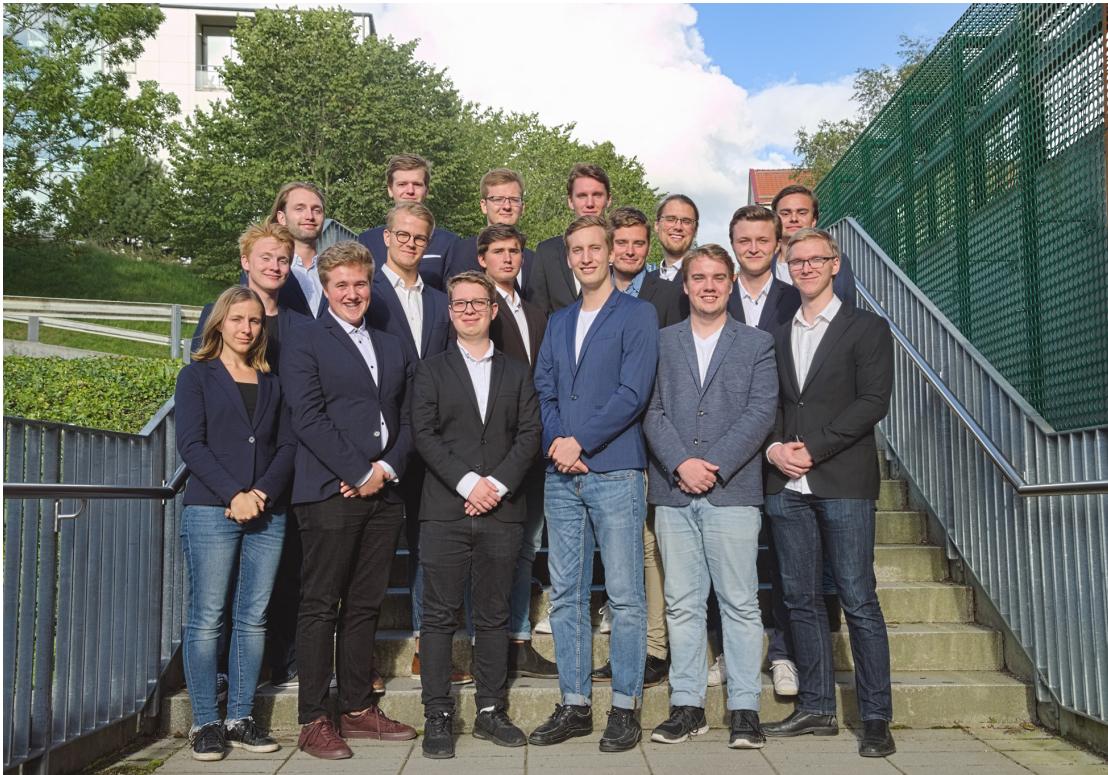

Excited? Can't wait? Before DatE-IT we arrange Speakers' week where we invite companies to do lunch lectures. And if that wasn't enough, at the end of each lunch lecture we will randomly choose some people who get a ticket to the DatE-IT banquet!

Now, let's enjoy the fair as much as possible! Go out there and talk to the exhibitors, no matter if you are a first or last year student. Who knows, you might find the job of your dreams, the perfect ex-job or just a nice cup of coffee. And, if you meet any of the hosts or someone from the DatE-It crew, please thank them from me because without them, and you, there would be no DatE-IT.

Anna Brunzell
Project manager DatE-IT 2019

The DatE-IT crew 2019

38

About

3bits was founded in 2008, we are more than 40 persons with a passion for e-commerce. Together with our customers we develop e-commerce solutions; everything from web to logistics. We have been trusted to deliver different solutions for many years to several of our successful customers as Lindex, Tingsstad, Ragn-Sells and Mölnlycke Health Care. We work in-house at our office close to the Central station. Do you want to learn more about Elasticsearch, Azure or Docker? We are a driven growth company offering you the possibility to grow with us.

About

EVRY is one of the Nordic region's largest tech and consulting companies with over 8,800 employees who work with everything from data center services and implementation of business systems, to expert advice and AI. We're obsessed with the possibilities of technology and digitalization, and to help people benefit from it. Because digital projects can be hard and complicated. Luckily, we've specialised our offerings to make things easier. Together with our customers we map out what services they need to become digital champions. Join our cause.

About

The Volvo Group was founded based on the idea that technology should serve the needs of people. Our customers use our trucks, buses, construction equipment, engines and services to drive growth and sustainable development throughout society.

We are about 100.000 employees in 190 markets and we all share the mission
- Driving prosperity through transport solutions.

About

Xamera is best described as the bridge between the social student life and the demands in working life. We make sure that young engineers and students within the IT and tech field not only get a job. - we give them right job from the start! In order to succeed, we've had to turn recruitment, interviewing and job search upside down to figure out how to do things our way.
